CORONAVIRUS

A Comic Just for Kids

By

Malaka Yherib

It's a word you might have heard
at school or online or on T.V.

This **coronavirus** is a newly discovered virus. It causes a disease called COVID-19.

In some parts of the world it has made lots of people **sick**.

Coronavirus Facts

- "Corona" is Latin for crown.
- Under a microscope these viruses look like a crown with spikes ending in little blobs.

A lot of the symptoms are similar to the **flu** (which you might have had before!)

Dry, itchy cough

Fever

Kinda hard to breathe

Most people who have gotten sick with this coronavirus have had a **mild** case.

And there aren't a lot of cases in **kids**. If kids do get the virus, it tends to be **very mild**.

People who are **much older** or who already have **health problems** are **more likely** to get **sicker** with coronavirus.

If anyone gets sick and feels like they might have coronavirus, they can **immediately** call their **doctors** and **get help**.

In the **U.S.** we **don't** have a lot of coronavirus cases. Medical people are tracking the disease very carefully and are trying to make sure it **doesn't spread**.

LET'S FIND THAT CORONAVIRUS!

(THE VIRUS... SOMEWHERE OUT THERE IN THE WORLD)

AND LET'S STOP IT!

If there's anything you might be **confused** or **worried** about, don't be afraid to ask someone you **TRUST**.

There are some things **you** can do to **protect** yourself, family and friends from getting sick.

① WASH YOUR HANDS OFTEN

★ USE SOAP AND WATER

★ WASH FOR AT LEAST **20 SECONDS**. IF IT HELPS, SING **THE ABC'S** WHILE YOU DO IT— THAT'S ABOUT 20 SECONDS.

★ WASH AFTER USING THE BATHROOM OR BEING IN PUBLIC SPACES (LIKE THE BUS OR PLAYGROUND).

★ TRY TO GET INTO ALL THE **NOOKS + CRANNIES!**

2) SNEEZE INTO YOUR ELBOWS

* CORONAVIRUS IS BELIEVED TO SPREAD THROUGH **LITTLE DROPLETS** OF FLUID FROM YOUR LUNGS.

* IF YOU SNEEZE INTO YOUR **ELBOWS**, YOU CAN PREVENT GERMS FROM GOING INTO THE AIR AND ONTO YOUR HANDS.

3) AVOID TOUCHING YOUR FACE

* DON'T PICK YOUR NOSE, DON'T TOUCH YOUR MOUTH, DON'T RUB YOUR EYES.

* THESE ARE THE PLACES WHERE GERMS ENTER OUR BODIES.

It's very important to remember that this kind of virus can affect

ANYBODY.

It doesn't matter where you come from or what country your parents are from.

Just because someone looks different or talks differently doesn't mean that they are at a higher risk of getting the coronavirus or spreading it.

AND DON'T FORGET!

There are a LOT of helpers out there who are working to protect you. It is NOT your job to worry.

But seriously, though...
PLEASE wash your hands!!!
