PURPOSE

The purpose of this guidebook is to supply you with resources that will help you learn more about Anti-Black Racism and mental health supports. The purpose of these resources is to empower you to take care of yourselves. The current political and social climate can be very difficult to cope with, and can take a toll on your mental, physical, and emotional wellbeing. We want to provide an all-in-one resource that addresses the different needs that you may be seeking in response to recent global events.

WHO IS HELPING HANDS?

Helping Hands is a grassroots, youth-led organization that fosters youth engagement and allows students aged 13-29 to find suitable volunteer and employment opportunities that showcase their talents and interests.

Our organization serves as a platform to match students with volunteer placements in organizations of their interest with a special focus on developing the skills the students would like to attain.
