WE KNOW THAT the Ontario youth sector is committed to making a positive difference in the lives of young people, providing them with the skills and resources they need to make positive contributions to their communities.

WE RECOGNIZE THAT that youth programs sometimes struggle to understand how to measure these processes and outcomes and articulate the impact of their programs to their stakeholders – including parents, funders, and youth themselves.

IN THIS CERTIFICATE, participants will learn how to develop an evaluation plan, implement this plan and use the findings to improve their programs and share their impact.
