Exercise 1

THINKING ABOUT YOUR LOGIC MODEL

Please take a few moments to sit down with your team and answer the following questions based on the organization or part of your program that you wish to create a logic model for. These are the first steps in the logic model process.

1. What is the vision for your organization or program?

2. What goals do you wish to achieve through this vision?

TARGET POPULATION	RESOURCES	SERVICES
Which youth are identified within the community as participants in your programs? What are their needs?	What assets and supplies are needed to accomplish this activity?	What activities or programming must we provide to address the identified needs of the youth that is our target group?

3. ASSUMPTIONS

Create your assumption statement. Based on the work done on pages 1 and 2, create a statement that outlines why you believe your approach will have positive results with the youth you serve. Be sure to cite the references you use to support your assertions.

Note: As you progress through the subsequent modules and exercises, you will want to "loop back" and revisit this section, revising and rethinking your assumptions.

Exercise 2

WRITING OUTCOMES

Building on your work in Exercise 1, please identify:

- 2 Long-term Outcomes
- 3 Intermediate Outcomes for at least one of the long-term outcomes identified
- 3 Short-term Outcomes for at least one of the intermediate outcomes indentified

Please remember that good outcome statements answer:

- Who
- Will Do
- What

These outcomes should relates directly back to your target population, resources, and services identifed in Exercise 1.

For sample outcomes, check out the 20 outcomes provided in the Stepping Up Framework.

LONG-TERM OUTCOMES	INTERMEDIATE OUTCOMES	SHORT-TERM OUTCOMES

(!) Remember to save your work. You will need this to complete your Logic Model.

YOUTHREX

**Research &
Evaluation eXchange**

Youth Research and Evaluation eXchange (YouthREX) is a province-wide initiative based at the School of Social Work at York University.

OUR MISSION is to make research evidence and evaluation practices accessible and relevant to Ontario's grassroots youth sector through capacity building, knowledge exchange, and evaluation leadership.

OUR VISION is an Ontario where shared knowledge is transformed into positive impact for all youth.

YouthREX is primarily funded by the Ontario Ministry of Children, Community & Social Services with contributions from the York Research Chair in Youth and Contexts of Inequity held by Dr. Uzo Anucha at the School of Social Work, York University.
